

El Salvador:

Ambassador calls for U.S. intervention

by Stewart Freed and Steven Yudin

American Ambassador Robert White has asked the American government to intervene directly in El Salvador, a representative of the Revolution Democratic Front of El Salvador (FDR) revealed Wednesday night.

More than 40 people attended the first meeting of the newly formed Salvadorian Support Committee, where Mario Nerio said the ambassador's request was made public through the official Salvadorian radio.

"We know that the Reagan government could possibly do that (intervene); the FDR hopes that this will not become official U.S. policy," said Nerio.

"When he (White) asks the Americans to intervene in El Salvador, he is challenging the mass movements in all the countries of Latin America," he said.

The goals of the committee are to pressure the American government, raise funds for the FDR and set up an information campaign to counter the current press coverage in the West.

"The international press says that the movement is an arm of the USSR. The people's movement of El Salvador is non-aligned. They (the people) are not interested in geopolitical problems — they're interested in democracy.

"We reject the notion that

this is war between the extreme left and the extreme right. It's a war between the minority and the majority," he said.

Nerio lashed out at the junta, noting its lack of popular support and the ineffectiveness of its land reforms.

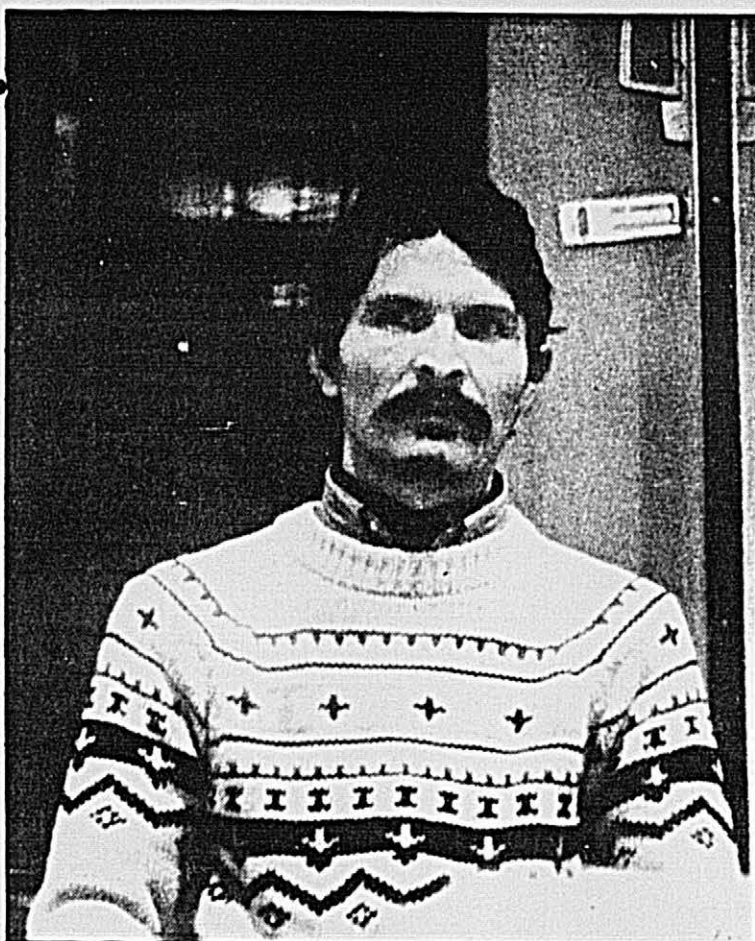

"The only people who are supporting the junta (besides the military) is a fraction of the Christian Democratic Party. No other political group supports it," he said.

"Since the reforms there have been more peasants killed in El Salvador than in 1932, when hundreds were massacred by the government," said Nerio.

Nerio claims that the FDR presently controls seven states, or about half the countryside.

"The only way the military can go in there is with armoured tanks," he said.

The Montreal Support Committee is having a meeting tonight at 7:30 pm at 4750 Henri-Julien.

El Salvador revolutionary Mario Nerio: American Ambassador is taking on mass movements in all Latin American countries.

Fee hike requested:

Gym running last mile

by Kimberley Stephenson

The McGill Athletic All Councils decided unanimously Wednesday night to push for a referendum asking for a \$15 a year increase in student fees.

The money, "a special facilities development fee," would go toward paying for a new athletic fieldhouse and renovating existing facilities.

Athletic All Councils is a body consisting of representatives from the various intramural and intercollegiate sports councils.

A presentation to All Councils by co-chairpersons Lorne Smith and Janet Blewald described the present athletic facilities as a "negative attraction" and "a disgrace to the university."

Specific problems cited included poor ventilation in the Currie gymnasium, falling plaster in squash courts, inadequate shower, washroom and locker facilities and a pool badly in need of repairs.

"It is not enough to have a petition or a referendum on the issue. Everybody agrees we need new facilities and would sign. We have to show support for this issue by backing it up with money," said Smith.

All Councils will be going to the next Students' Society meeting February 4 to ask that their referendum question be put on the ballot during the next general election.

If the referendum passes, the money will be collected and banked for 10 years. It is intended that student money pay only a small percentage of the costs necessary for the new facilities. The students hope that the majority of the money will be raised by the Graduates' Society and from corporate donations.

"If we get \$15 a year over 10 years, with banking compounding and everything we will get four-and-a-half million," said Debbie Shapiro of the Women's Intramural Athletic Council.

"That will convince people we are serious about this. It will take a number of years to pay off the building and we have to guarantee student support for a long time," she said.

The estimated cost of the project is \$15 million plus.

"If we get the commitment for the money hopefully the facilities will start being built in one or two years," said Smith.

Shapiro told the All Councils that they would have to go all out to sell the idea to students.

"The Students' Society ran a successful campaign to raise dues. This would have to be the same thing, with slogans and posters. We'll have to get every player on our intramural and intercollegiate teams to get out there," she said.

Canada's Only Students' Daily

The McGill Daily

Energy conference leaves students out in cold

by Doug Janoff

The Student Union Building will be virtually closed to the student public for a week in February due to the upcoming McGill Student Conference on Energy.

The conference, scheduled to take place February 11 to 14, will involve 120 student delegates and an unspecified number of delegates from the public and private sectors.

Due to the large number of conference participants, members of student groups have found to their surprise, that the Union Building will be virtually off limits for the duration of the affair.

Todd Ducharme, Students' Society president, refused to comment on the matter, but Terje Anderson, VP University Affairs, said "What they're doing essentially is forcing out the clubs who have no money to pay for room rental elsewhere and allowing the ones who have the money to have the run of the building."

Funding for the conference,

estimated in September to cost \$80,000, is another area of concern. The conference has received thousands of dollars from private corporations, many of which are linked with the energy industry.

"I only hope that the existence of all this corporate money does not preclude discussion of alternative energy sources," said Arts Representative to Council Patrick Macklem.

"In other words, I hope the deck is not stacked from the beginning," he said.

Ducharme disagreed with the use of corporate funds.

"After all, what were the bucks going to be used for anyway?" he said.

Ducharme added, however, that he was somewhat disappointed in the list of speakers coming to address both student and non-student delegates at the conference.

The list of speakers includes: His Excellency Edward Schreyer, governor-general of Canada; Mark McGuigan, minister of External Affairs; J.I.

Gomez, Mexican ambassador to Canada; R.B. Cowley, Saskatchewan energy minister; Marc Lalonde, federal energy minister; Mr. R.A. Sadove, senior energy advisor of the World Bank; and P.R. Iglesias, secretary-general of the United Nations Conference on new and Renewable Resources of Energy.

Ducharme said he believed that to counter-weight the corporate presence at the conference, "various environmental groups were contacted but did not respond enthusiastically."

But Peter Maass, a representative of the Canadian Coalition for Nuclear Responsibility, said his group was never contacted.

"We received no invitation from them," he said.

Myles Frosst, co-vice-chairman of the Student Conference Committee stressed that alternative energy will be the focal point of the last full day of the conference.

"We have asked Mr. Sadove to talk since we want to represent the needs of the Third World," Frosst said.

"They (the speakers) will all have to address the issue of alternative energy sources," said.

"If they were just coming to iterate the status quo, there would be no need for the

conference."

Anderson also objected to the lack of labour representation at the conference, pointing out that labour conditions in the nuclear industry are just as important as technology.

Frosst commented on the lack of labour representation.

"Labour has a lot to contribute — but they'll be the first to tell you they don't have the expertise with respect to technical sources," he said.

Salim Tharani, VP Finance, explained that the cost of the conference, estimated at \$40,000 last April, skyrocketed to \$80,000 last September with the establishment of the student organizing committee. Harry Achkarian, this year's president of the Association Internationale des étudiants en sciences économiques et commerciales (AIESEC), is heading this committee. Approximately 25 per cent of the student committee members are also members of AIESEC.

Tharani said that as of last week, only \$40,000 had been collected.

Many members of the business and professional community in Montreal have contributed "substantial" sums of money to the conference through the McGill Fund Office, and are eligible for tax deductions.

Erratum

It was erroneously reported in yesterday's *Daily* that the Students' Society Council voted to have the vice-president finance and VP university affairs elected on a campus-wide basis (they are presently elected by Council from among Council members). The motion was defeated by Council. The *Daily* regrets the error.

Redmen on the attack: As Pat Shannon (27) wins the faceoff, Redmen Bruce Randall (12) and Yves Beaucage (15) head out of McGill's end. Concordia beat McGill, 6-3.

Puck Redmen amazing in 6-3 loss to Concordia

by Elise Goldberg

—Hello, Doc? Was there a full moon the other night?

—No, I haven't been howling at the moon again. It's just that a lot of strange things happened on Wednesday night. The Redmen played Concordia and lost 6-3. It was a really close game.

—What do you mean? What's so strange?

—Well, Concordia is undefeated in 13 QUAA games and it really looked as though the Redmen were going to pull out an upset. They played an amazing game. It was really exciting. I could hardly stay in

my seat and, boy, did I get a sore throat from yelling!

—What happened?

—Oh, you should have been there. Actually, it started out pretty bleak. Redmen goalie Larry Rush got a penalty after only 90 seconds of play. I figured it was going to be another Concordia massacre from then on but McGill really surprised me. The penalty killing was great. It wasn't until the 11-minute mark that Stinger Steve Young passed in front to Dave Nixon, who put the puck in the net for the first Concordia goal. Mike Piano manoeuvred around a McGill defenceman and flipped it in for Con's second goal a few minutes later.

But the Redmen came back. They really seemed determined. They closed the gap to one with three-and-a-half minutes left in the period. Forward Phil Riebel passed off to defenceman Gilles Hudon. Hudon fed the puck to David Moritsugu, whose wrist shot sailed over the right shoulder of Stinger goalie John McLeod. It was a really nice passing play.

—The second period?

—That was the most exciting part. You know, you really should have been there. Four minutes into the period, Redman Eddie Vlasic took a pass from right off the face-off and took a hard slapshot from

the point. Tim Bossy tipped in the shot and the Redmen were tied with the Stingers at two. I'll bet it's been quite a while since that's happened.

—The tie?

—Oh, that lasted for almost 10 minutes and I'll tell you, those were 10 exciting minutes. But then Concordia got two goals in less than three minutes. Piano's second goal came on a quick wrist shot from the slot. He also had an assist on Concordia's fourth goal, which was scored by Steve Young.

Both Piano and Young had three points on the night but Young's powerplay goal turned out to be all that the Stingers needed to win.

—Downhill from there?

—Are you crazy? I'm telling you, they should have been there! The Redmen kept up the pace despite a quick Con goal only 18 seconds into the third period and minutes later Young added another insurance goal on an unassisted breakaway.

—Give up? Then?

—No, the Redmen never gave up. They kept trying to come back. A pass from Carl Bastien to Mike Nelson set up some fancy stickwork by Bossy who gave the Redmen their third goal at the halfway point in the period. That finished off the scoring for the evening.

continued on page 4

Redmen put it together again, 76-66, over Concordia

by Mel Timmy

How much excitement could the world be asked to digest in one day? ABC, NBC, and CBS dubbed it "Terrific Tuesday" and rightly so. Not only was a new president inaugurated but the American hostages were finally released after 444 days in captivity.

To top the day off, the romping McGill Redmen took the sting out of their crosstown rivals from Concordia, winning 76-66 in an emotionally charged home opener. The Redmen remain the only unbeaten team in the QUAA with a 3-0 record.

With the spread between the two teams never greater than six points and the game tied 10 times, the packed Currie Gym was treated to a barn burner.

The first half was one of frustration for both teams. Concordia, lacking leadership and shooting poorly, controlled the offensive boards but was unable to capitalize.

Prior to this game, McGill hadn't beaten Concordia in one year and by the looks of the first 19 minutes and 15 seconds it didn't seem like much would change.

But with 45 seconds remaining in the first half and Con leading 36-30, Redmen guards Gordie Brabant and Mike Homsy teamed up for two great baskets giving the fans a shot of adrenalin and leaving Concordia a two-point halftime lead.

McGill assistant coach Edward Pomykala summed up McGill's first half play: "We're lucky to be playing so poorly and only be down by two."

The first minute of the second half belonged to Redmen forward Mark Adilman who came back from the dead to top two baseline jumpers and put McGill ahead by two.

With 13:20 remaining McGill coach Butch Staples made the right move at the right time, subbing in Sylvain Castonguay for Mike Homsy who was finally feeling the effects of his halftime Sominex.

Castonguay's aggressiveness

inspired the McGill defence as he caused numerous Stinger turnovers. One-and-a-half minutes later Redmen forward Rick Rusk put McGill ahead for good with a spectacular three-point play.

The Redmen were in control for the remaining 12 minutes, showing tremendous patience, excellent shot selection and awesome board strength.

Doctor Gordie Brabant led all scorers with 22 points, shooting a remarkable 10 of 13

from the foul line. Rusk, QUAA player of the week, scored 20, rookie sensation Willie Hinz 18, Adilman eight and Lou "Mr. Heart" Fraquelli had six.

Mike Solomon led Stinger scorers with 19 points.

Next Redmen game is against Bishop's at Lennoxville and the team returns to Currie Gym tomorrow to face UQTR at 4:00 pm.

So off to Bishop's the Redmen go,

To up their record to 4-0,
Or so the poem should go.

Stingers subdue snoozing Martlets, 63-60

by Bobby Katz

Rip Van Winkle's birthday is months away.

But the McGill Martlets, in a tribute to the legend of Sleepy Hollow, slept through the first half of their basketball matchup against the Concordia Stingers and ended up losing 63-60, at Currie Gym.

Martlet Coach Hubert Lacroix implored his women at halftime, "Wake up! We can play better than this, we can beat this team." And they almost did.

A strong second half lifted the Martlets from an 18-point deficit at the end of their Van Winklean first half to a momentary one-point lead in the dying minutes of the game and finally to a heartbreaking three-point loss to number-five ranked Con.

Coach Lacroix explained, "We showed up to play 20 minutes late."

How right Lacroix was. The 41-23 score at the half indicated how poorly the Martlets did play.

The Stingers played well in the first half, dominating the boards and sticking to their offensive game plan. Slick Joann Bourque and Gay Owens each scored 10 points in the first half. Together in the first period they totaled three points less than the Martlets.

The Stingers stung the

Martlets, yet the sting didn't hurt as much as the stink of the Red and White's poor play. In the first half, McGill shot 31 per cent from the floor and turned the ball over 11 times.

Fortunately for the fans the game was a tale of two halves. The second half was all McGill as the Stingers obligingly filled Rip's shoes (vacated by the Martlets after the first half) for the first 16 minutes.

The Martlets, using a full-court press, forced 16 Con turnovers. McGill then scored 10 consecutive points and pulled ahead 54-53 with only 3:30 left in the match.

The reasons the Martlets snatched defeat out of the jaws of victory are threefold. First, the Red and White missed the first half.

Second, the team got into foul trouble in the second half, resulting in Con scoring 21 of its 63 points on trips to the charity stripe.

Third, the shooting of McGill's forwards was inadequate. From the floor, forwards Linda Schaapman, Annette Kiss and Michele Poupore shot 33%, 23% and 38% respectively. Together they were 12 for 38, a field goal percentage of 31.

Coach Lacroix said, "We beat ourselves physically and mentally out there. You can't sleep through half the game and expect to beat a nationally

ranked team."

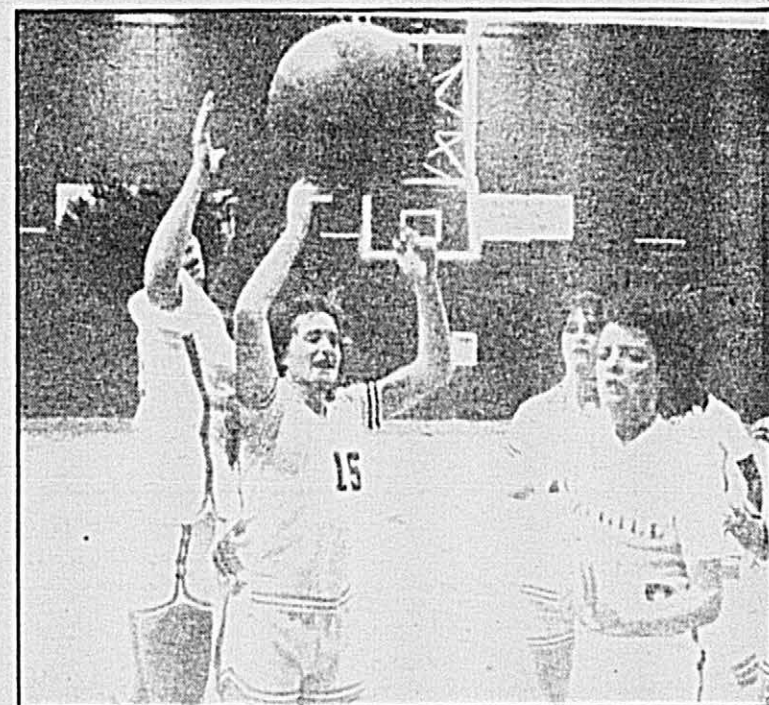

The Martlets' success in the second half, due to their full-court pressing, was too little, too late, as the Stingers held on in the final, pressure-filled four minutes.

On the bright side for the Martlets was the play of lightning-quick guard Karen Diaz, McGill's high scorer. She was the only Martlet starter with a field goal percentage over 50. She was six for 11

(55%) from the floor and three of five from the foul line for a total of 15 points.

High scorers for the Stingers were Joann Bourque with 16 points and Beth Mansfield counting 12.

Next Martlet game is tonight against the Bishop's Lady Gaits, who are ranked first in Canada, at Lennoxville. Martlets come home to Currie tomorrow afternoon to face the women of UQTR at 2:00 pm.

Look out! This ball is so hot it's going to leap out of the page, just like the commercial. Action from the Martlet-Stinger game, color by Zenith.

Redmen hockey . . .

continued from page 3

—So what was so strange?

—Well, little things, I guess. Bossy switched numbers for the night and wore his lucky number 17 and look what happened. He scored two of the three Redmen goals and he told me: "I really wanted the hat trick, but I'm happy. The team's happy too."

"It was a moral victory for us," said Larry Rush, who played a great game in net, stopping 36 shots in all. "But the defence was great. They kept clearing the puck out. The defence played really well, especially Eddie (Vlasic)."

Yeah, the defence played really well. It was impressive. Even the ref, Don Hayward, was impressive (and that is strange considering he's a ref in the QUAA).

—When's the next game?

—Glad you asked. It's Saturday afternoon at 1:00. The game is to benefit the Big Brothers of Montreal. You really ought to go. It's against Trois Rivières. The Redmen tied them last time they met.

—So, Doc, tell me. Was there a full moon Wednesday night?

What?... Take two hockey pucks and call you in the morning?

Today

Martlet Hockey Team

at Concordia Invitational Tournament plays Potsdam at 5:00 pm.

Debating Union

Regularly scheduled novice practice at 2:00 pm today in Union room 310. See you there!

Community McGill

Urgent need for Big Brothers and tutors. They need you. Drop by our office, Union room 406, for more info. 392-8937 (12 to 2 pm).

Seminar in Northern Studies
